### → Laramie County Project Lifesaver

#### **What is Project Lifesaver** ([projectlifesaver.org](http://projectlifesaver.org))

The Cheyenne Police Department, in partnership with the Laramie County Sheriff's Department and the Wyoming Mounted Association Search and Rescue has brought Project Lifesaver to Laramie County. Project Lifesaver assists county residents who have a medical condition that may cause them to wander. The project is a rapid-response unit that aids victims and families suffering from Down Syndrome, Alzheimer's, brain injuries, Autism and other dementia related disorders.

#### **How it Works**

Project Lifesaver relies on proven radio technology and specially trained search and rescue teams. Clients that are enrolled in Project Lifesaver wear a personalized wristband that emits a tracking signal. When care givers notify the local Project Lifesaver team that the person is missing, a search and rescue team responds to the wanderer's area and starts searching with the mobile locator tracking system. This system has changed search times from hours and days to minutes.

#### **How to Enroll**

Family members or caregivers who wish to enroll their loved one in Project Lifesaver can contact:

Officer Juschka  
415 W. 18th Street
