

DENIM & DIAMONDS

2024 Comprehensive Cancer Center Project

Cheyenne Regional Foundation continues to support our local community health system. This year marks the 10 year anniversary for CRMC's Comprehensive Cancer Center! In those 10 years, countless lives have been touched and many of those saved.

This year we look to support this crucial piece to our community health system by assisting the cancer center through fundraising events such as Denim & Diamonds and our annual Golf Tournament.

As a regional health system, CRMC and the Foundation recognize the importance of providing a comprehensive approach to all types of health care in our community. One of the more prevalent and impactful areas is our Cancer Center.

The CRMC Cancer Center provides treatment for over 50 types of cancer and provides over 30,000 patient visits per year! The CRMC Foundation supports these services by providing Lymphedema garments, boutique refreshes, exercise classes, cancer survivor events, and even pet therapy!

This year we humbly seek your generous support to mark the 10 year anniversary of this critical piece of our community health system. Donations this year will cover major improvements to the cancer center including a new pharmacy, patient relief fund, and continued support of Cancer Center projects and events.
