

# Stay on Top of Your Health

MyChart helps patients stay actively involved in their healthcare by providing secure, real time access to important medical information all in one place. Patients can view test results, keep track of medications, allergies, monitor ongoing health conditions and view their immunization history. MyChart also supports patients in working toward personal care goals and completing to-do items assigned by their care team, such as questionnaires, follow up tasks and preventive screenings.

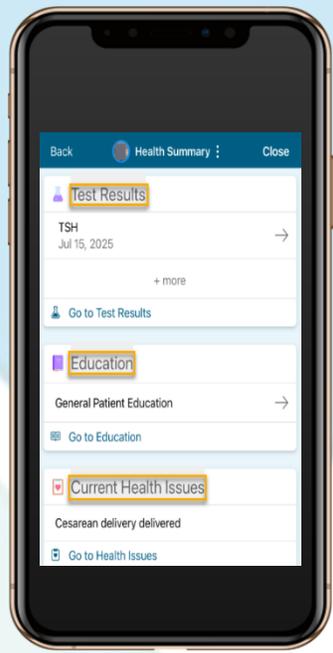

From the **Main Menu**, click on [Health Summary](#) to see **Health Goals, Medications, Test Results, Current Health Issues, Allergies and Immunizations**. Click on each Heading to go to that activity.

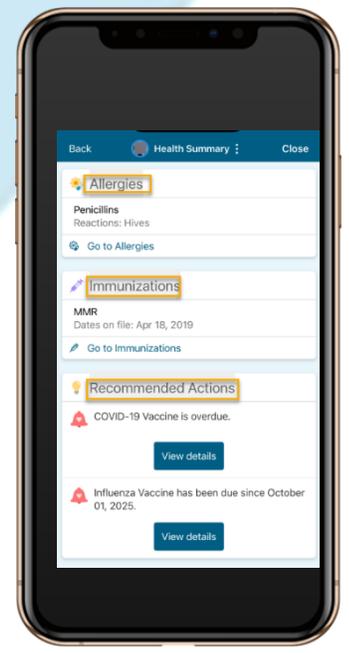

- Add a Health Goal**
  - Sharing a health goal with your care team can help them discuss your plan of care with you at future visits.
- Medications**
  - Request Medication refills
  - Report Medications you are taking
  - Remove Medications you are no longer taking
- Test Results**
  - View test results as soon as they're ready
- Current Health Issues**
  - Add any Personal Health Issues
- Allergies**
  - Add Allergies or personal notes about allergies
- Immunizations**
  - See the list of immunizations that are on file for you
