

# PROXY ACCESS

From the *Main Menu*, click on  to manage ongoing access to your MyChart account or enable others access to take care of or help you track your health.

Within the *Sharing Hub* click  **Manage ongoing access to your MyChart account**

This person might be taking care of you or helping you track your health.

A MyChart proxy is someone you trust to help manage your healthcare.

A proxy can access your MyChart account using their own login to view appointments, test results, medications, and messages and can help schedule visits or communicate with your care team.

Proxy access is commonly used by parents or caregivers and is only granted with patient permission.

Access levels may vary based on age and CRMC policies and guidelines.

**NOT ON MyChart ?  
SIGNING UP IS EASY.**

Go to [www.mychart.crmcwyo.org](http://www.mychart.crmcwyo.org) or **download the app.**
