

MyChart Central

Cheyenne Regional Medical Center
Epic Training

One Login for Your Healthcare

Access any MyChart account linked to MyChart Central with a single login: your Epic ID. It's the last MyChart login you'll ever need.

Modern Login Methods

With login options like Face ID and passkeys, MyChart Central gives you a password-free experience across your MyChart accounts.

Your Information Follows You

If your basic contact information changes, update it once and automatically share it with your linked organizations. When you go to a new organization, MyChart Central carries this information over—no need to repeat yourself.

All in the MyChart Experience

MyChart Central makes it easier for you to access all that you love about MyChart—like scheduling appointments, communicating with care teams, and managing your care from home.

[+ Link new account](#)

From the **Link New Account** Activity, you can type in the name of the organization you are trying to link to and click Link Account. Once you have successfully logged in with that organization's MyChart credentials, that MyChart account will be linked to your MyChart Central account.
